ATTENTION GIFTED, ENRICHMENT, & AFTER SCHOOL STAFF

Do you need enrichment programming for accelerated students, Talented and Gifted Programs, or After School Clubs?

CHECK OUT our American Sign Language Enrichment Courses

The MVESC is now offering after school (or during school) American Sign Language Enrichment Classes for elementary, middle, and high school age students. Our classes are delivered through interactive video conference connections which allow students to see, hear, and interact with our instructor. Classes can be taken as singleton connections or in a series. Each 40-minute class will consist of live instruction and supplemental materials for that topic. Our instructors use a variety of fun and interactive activities to keep students involved the entire instructional period. Topic vocabulary can be selected for the audience and month of the connection.

WORLD LANGUAGE COURSES AMERICAN SIGN LANGUAGE

CCP+OPTION THROUGH ZANE STATE COLLEGE

College coursework that comes to you...

Would you like to add a new or world language to your district course options? Do you need to diversify your course choices but don't have the budget to take on the cost of a new staff member? Sharing courses and course costs may be the answer. Check out the **MVESC American Sign Language program for the 2018-19 school year!**

The following courses are available via blended learning (video conference and web based instruction). All ASL 1 and ASL 2 courses are approved **College Credit Plus** through Zane State. Best of all, you don't need to leave your high school building to participate.

Available courses:

- American Sign Language I
- American Sign Language II
- American Sign Language III
- American Sign Language IV

Course Cost: \$10,000 for 1 course section (20 students)

Discounts given to districts purchasing multiple class sections.

What is American Sign Language?

American Sign Language (ASL) is a visually perceived, gesture-based language that is primarily in the United States and parts of Canada by more than 2 million people daily.

The shape, placement, and movement of the hands, as well as facial expressions and body movements, all play important parts in conveying information.
